

Coloured Dairy Breeds 2021

Breeding a better future

100% Irish Farmer Owned

Manage your farm efficiently

Links directly to agfood and ICBF
and is designed to manage all
the key day to day functions on a
typical Irish farm.

WE'RE HERE TO HELP.

Unlimited training is available as you proceed,
step by step, at your own pace.

Fleckvieh

Fleckvieh cows are healthy and robust with good fertility and a long productive life. High performance potential for milk and beef.

- Breed average (Austria) 7,700 kgs 4.15% Fat, 3.43% Protein
- Increase in milk production from first to third lactation
- Increase lifetime milk production
- Strong udders with good texture and correct teat placement
- Strong feet and legs

Crossbreeding with Fleckvieh

Fleckvieh is ideally suited for crossbreeding with Holstein & Jersey:

- Reduced mastitis and somatic cell counts
- More body reserves, substance and muscling in dairy cows
- Improved beef traits of calves (including higher returns for culled cows)
- Healthy cows with a good longevity

- Robust
- High longevity
- Health
- Beef Merit

MRI Rotbunt DN

The MRI breed is an old Red & White dual purpose breed, coming from the basin of the three rivers Meuse, Rhine and IJssel, from which the name is derived.

The strong points of MRI are:

- High protein percentage
- Good fat and protein
- Robust

Crossbreeding

Currently more than 20% of all MRIJ inseminations in Holland are used for crossbreeding on Holstein cows. Farmers who need more strength and robustness, as well as farmers who

operate on a more low cost, extensive system, should consider the MRIJ breed as an option for crossbreeding. MRIJ's:

- Excellent fertility
- Healthy cows
- Excellent body condition
- Long living cows
- High protein
- Longevity
- High protein content
- Strong muscularity
- Strength and capacity
- Good fertility

Danish Jersey

The breeding goal for Viking Jersey is a healthy cow with good fertility, functional conformation and high production. The breeding goal is described in our NTM Index (Nordic Total Merit), which is an economic index, ensuring maximum progress for all economically important traits and best success for the farmers.

Breed Average

7400 kgs milk 5.93% Fat, 4.19% Protein, 749 kgs milk solids

- Longevity
- Solids
- Efficiency

Ayrshires & Scandanavian Reds

Scandinavian Reds excel for health. Disease resistance, longevity and mastitis resistance and important traits .

The Viking Red and Semex Ayrshire breeding programmes are large scientific based breeding programmes that deliver real results. They make extensive use of genomics and progeny testing to drive progress

- Disease Resistance
- Solids
- Efficiency

Milking Shorthorn

We pick the best Milking Shorthorns from around the world.

The Canadian and Australian programmes have consistency delivered.

We also select the very best Irish bred bulls.

Milking Shorthorns deliver robustness longevity and fertility.

- Robustness
- Longevity
- Fertility
